24 Weapon in the building of the Petitioner's residence.

25 5. The weapon is based on electromagnetic radiation (EMR)  
26 and is invisible.

27 6. The perpetrators put chips in the Petitioner's body.

1       7.     These chips receive the weapon's signal, amplify it and  
2 severely destroy the petitioner's health.

3       8.     People around the petitioner, who are without chips, do  
4 not feel the EMR.

5       9.     But the Petitioner has seen perpetrators coming to the  
6 building in a protective suits covering them from head to toe.

7       10.    With this weapon and chips the perpetrators made  
8 Petitioner deaf, blind, broke his spine (scoliosis), gave him  
9 cancer, deep vein thrombosis and many other diseases.

10      11.    The police refuses to protect him. They say they do not  
11 deal with EMR.

12      12.    The FBI says: "Call 911."

13      13.    To obtain evidence of the EMR a specialized equipment  
14 called spectrum analyzer is required.

15      14.    The Los Angeles County Public Health Department used to  
16 have spectrum analyzer to ensure healthful environment.

17      15.    But when the perpetrators started torturing people, that  
18 equipment disappeared.

19      16.    The Petitioner tried to make LA County to acquire the  
20 spectrum analyzer but the County Supervisor does not answer his  
21 letter (Exhibit 1).

22      17.    Tje Petitioner tried to buy an inexpensive spectrum  
23 analyzer on his own but the perpetrators didn't let him do it.

24      18.    They blocked his phone connection with a salesman and  
25 removed payment info from the email.

26      19.    The perpetrators keep Petitioner in slavery.

27      20.    Beside torturing with EMR the control his mail, email  
28 and telephone communications. They follow him 24x7.

21. The FCC has all necessary equipment to detect the EMR and find its source.

22. But the FCC states that they do not respond to requests from private individuals.

## **CONCLUSION**
